Professional Experience

Associate Software Engineer at NIIT Limited — Gurgaon, Haryana

Jun 2026 – Present

- Engineered Salesforce solutions (**Apex, Record-Triggered Flows, Validation Rules, SOQL**) to automate core enterprise business workflows, reducing manual intervention.
- Built **Python automation (Selenium, Pandas)** for data import/export, eliminating repetitive data tasks.

Full Stack Developer at Aaptaat Private Limited — Gurgaon, Haryana

Jan 2026 – Jun 2026

- Optimized **REST APIs** serving **5,000+** monthly users, and integrated **enterprise third-party APIs**.
 - Integrated **LLM-backed** AI workflows with backend APIs, enabling tool interactions using MCP-based tool.
-

Projects

PM SaaS — Multi-Tenant Project Management Platform | [GitHub](#)

NestJS · Next.js · PostgreSQL · Prisma · Redis · Socket.IO · Docker · Stripe · BullMQ

- Architected a **production-grade multi-tenant SaaS platform** with RBAC, fully isolated tenant data models,
- Delivered real-time Kanban collaboration, JWT auth with refresh tokens, **Stripe subscription billing**, BullMQ async job processing, and a fully **Dockerized CI/CD pipeline** via GitHub Actions.

AI Interview & Collaborative Coding Platform | [GitHub](#) | [link](#)

Next.js · Express · Socket.IO · PostgreSQL · Prisma

- Built a **low-latency collaborative coding environment** supporting **synchronized** code execution, **real-time chat**, and AI-generated interview feedback across concurrent multi-user sessions

Groq API's Article Summarizer | [GitHub](#) | [link](#)

React · Groq API · Llama 3 · RTK Query

- Shipped a **production AI content tool** processing long-form articles with **Llama 3.2**
 - Added features like **Q&A, multilingual translation, and fact-checking** and **RTK query** for API data fetching.
-

Internships

Kaizen Prospecting LLP — Full Stack Developer Intern – **3 months**

- Developed and shipped MERN stack web applications in an offline production environment.

OctaNet Private Solutions — Frontend Developer Intern – **2 months**

- Built React UI modules with measurable performance improvements through component-level optimization.
-

Technical Skills

- Salesforce:** Apex, SOQL, Apex Triggers, Flows, Validation Rules, Data Modeling, Data Loader, Salesforce APIs
 - Full Stack / Backend:** Node.js, Express.js, NestJS, REST API, Microservices, WebSockets, JWT Auth
 - Frontend:** React.js, Next.js, TypeScript, Tailwind CSS, Bootstrap, HTML5, CSS3
 - AI & Automation:** MCP Concepts, Python, Selenium, Pandas, Microsoft Azure, Git, GitHub, Postman, Copilot
 - Databases:** PostgreSQL, MongoDB, Redis, Prisma, Firebase
-

Achievements

- Winner — **Chainlink Hackathon** (\$4,000 prize)
 - Winner — **Monad Blitz Hackathon Delhi** (\$1,000 prize)
 - Solved **300+ DSA problems** on LeetCode | **IBM** Web Development Certification
-

Education

- B.Tech — Computer Science**, Graphic Era Hill University, Dehradun (2021–2025)
- CBSE Class XII — PCM'CS**, St. Mary's Sr. Sec. School, Haridwar (2021)
